INTRODUCTION

The designated administrators at De La Salle College are central in obtaining, recording and keeping accurate records, attempting to minimise any inaccuracies (which can arise due to many different reasons) and undertake to immediately correct any inaccurate data as soon as the matter has been brought to our attention.

Records are always updated upon the written instruction from the parent when relating to change of address/contact numbers/emails/medical matters and/or amended when students join or leave De La Salle College.

De La Salle College retains many different kinds of records (and in so doing complies with all pertinent legislation) e.g.

1. General information and education records – students;
2. Medical/confidential information – students;
3. Admission documents and personal information – students;
4. Financial records; (and other relevant financial documents are held with the College Bursar)

The following documents are held with other personnel:

1. Terms of Reference for the Board of Governors – College Bursar
2. Personnel Records (relating to personal and professional issues) – Bursar’s Office
3. Personnel salary issues – Bursar’s Office

De La Salle College retains most documents on computer to process and record much of the aforementioned data. Accordingly the Head of College is registered under the Data Protection Law. De La Salle College aims to comply with ‘Data Protection Principles’ and reflects its spirit of openness and good practice.

GENERAL INFORMATION AND EDUCATIONAL RECORDS – STUDENTS

Copies of reports, student profiles, examination results, Record of Achievement and portfolios of work are kept as general information. These records identify the work covered, the student’s strengths and weaknesses, targets for improvement, academic achievements, general progress, etc. Such curricular records comprise the major part of a student’s educational record. These files are kept securely and access is restricted.

Contents of educational records will be disclosed to parents upon request within a specified time and to another school which is considering a student for admission or which has just admitted that student upon **receipt of written parental permission**.

When a transfer has occurred, the student's school file will be forwarded directly to the new school. Parents will be advised that their son's records have been transferred and, should they wish to view the file, they should contact the new school accordingly.

MEDICAL/CONFIDENTIAL INFORMATION – STUDENTS

Medical information and confidential reports (e.g., Social Services and Psychological Reports) are kept separately from general information and are dealt with by the Deputy Head of College. De La Salle College asks all parents of students starting whether their child has any medical conditions, e.g. asthma. As well as keeping a note on the child's personal file a special needs record will be kept at De La Salle College by T....T....N.... (TTN) and will be updated as necessary.

The special needs record will show:

Personal details, doctor's name/address/phone number, hospital reference, if applicable;

Treatment needed regularly (i.e. asthma preventer);

Relief treatment (e.g. asthma reliever) if required.

All files are held securely and access is restricted to designated personnel.

The Board of Governors will consider appeals against any decision made by the Head of College (or those with delegated authority) not to disclose/transfer/copy/amend a student's record.
