Outline of this Policy

E-safety is a major aspect of safeguarding individuals while they are online. This policy complements the E-safety policy, but focuses on electronic devices used by students for their studies.

Students who have a personal electronic device (tablet or laptop) or a device provided by the college for their studies must follow the guidance in this policy.

Both the student and parent/guardian must read and accept the Electronic Devices Acceptable Use Policy (AUP) before the electronic device can be connected to the college network.

Electronic devices (tablets/laptops) that have not been accepted on the network and are unknown to the SIRO/Network Manager must not be used within the college.

Section A of this document outlines the college's general ICT Acceptable Use Policy and Section B focuses on the Acceptable Use Policy specifically for electronic devices being used within the college. These must be read through carefully before signing. The AUP sign-off sheet is found within this policy and can be handed to the Network Manager upon completion.

These rules are designed to keep everyone safe, ensure that electronic devices are used appropriately and help us be fair to everyone. This agreement applies at all times and in all locations.

2. I will not damage my electronic device, or the electronic device of another person in school.
3. I will take good care of my electronic device and will always use the school Otterbox/Microsoft case provided. College laptops must be carried and stored in the bag provided.
4. I will not open or attempt to open the main casing of the electronic device and understand that this invalidates the warranty.
